

Lightning Velo 2015 Kit Information

Overview

- The 2015 kit was designed to be a positive (white) and negative (black) concept.
- Features the Lightning Velo “Tri-Color” (pink/white/blue) stripe system highlighting the sleeves and short edges.
- The “Est. 1988” graphic has been moved from the collar to under the logo on the front.
- The concept could be considered as a club jersey and a race jersey or a winter / summer set.
- This design was developed by Ron Solomon and selected through club membership voting. Several designs were submitted by club members and two run-off votes were held to determine the winning design.
- Club Kit Fitting takes place Wednesday August, 20th at 7:00 PM at [Tri-Zone, 3380 Cerritos Ave, Los Alamitos, CA 90720](#)
- Ordering and payment is done through the Voler website starting August 20th, 2014 and closing October 6th, 2014
- Shipment to the club Clothing Director is expected in late November. Announcements will be emailed and posted on the club web site and Facebook page. Items can be picked up at her residence or at the club Holiday Party.
- A second ordering period will be scheduled for the spring of 2015.
- The club keeps a separate inventory of various items but due to costs, this inventory is limited.
- To help with the kit fitting process, you can use this document to help determine the types, sizes and colors of desired items and then use the worksheet on the last page to make notes regarding your order.

Kit Pieces

- Jerseys (2)
 - Black
 - White
- Sleeveless Jerseys (2)
 - Black
 - White
- Vests (2) (Similar to sleeveless Jersey and available as windbreaker and thermal)
 - Black
 - White
- Jackets (2) (Similar to Jersey with Tri-color stripes at cuff and available as windbreaker and thermal)
 - Black
 - White
- Shorts / Bibs / Knickers (2)
 - Black with LV logo and tricolor stripes at leg
 - White with LV logo and tricolor stripes at leg
- Arm Warmers (2)
 - Black with Tri-color stripes at cuff
 - White with Tri-color stripes at cuff
- Gloves (2)
 - Black and white with color club logo on back of hand
 - White with black accents and color club logo on back of hand

Selecting Kit Pieces

- A “Race Cut” jersey has a European fit that is form-fitting throughout the body. It also features a shorter length to keep the jersey at the waist, which ensures that artwork on the rear panel of the short will be visible.
- The “Club Cut” jersey offers a relaxed fit for ultimate comfort. Designed with extra length in the back for coverage in the riding position. Women’s Club Cut does not have elastic at the waist.

Mens’s Jersey and Shorts Sizing Chart

Size	Waist	Weight	Height	Chest
X Small	26-29	100-120	5'5' and under	33-35
Small	29-31	120-145	5'4' to 5' 8'	35-37
Medium	32-34	145-170	5'7' to 5'11'	38-40
Large	35-37	170-190	5'10' to 6'2'	40-42
X Large	38-41	190-220	6'1' to 6'5'	42-44
XX Large	42-45	220-250	6'3' and up	44-46
XXX Large	46-50	250-260	6'3' and up	46-48

Shorts Pads Comparison Chart

Pad	Detail	Stretch	Surface Fabric	Recommended Ride Time
<p>Comp HP - Men's & Women's</p> <p>This updated version features pre-molded wings and an integrated top for a smooth, seamless look. While the overall dimensions are almost the same, the ultra high density foam inserts have been enlarged to deliver a greater more comfort during longer rides. The central channel has been slightly modified to provide more relief along the perineal area. Reduced usage of back liner makes the pad more lightweight and breathable, allowing greater freedom of movement.</p>	<p>Source: Italy - Cytech 3D sculpted quad density perforated fo</p> 	Four Way	EIT Carbonium Microfibre	6+ hours
<p>Chrono SLM - Men's & Women's</p> <p>The Chrono SLM starts with a 4mm low density surface foam bonded to a high density perforated 10mm foam. Foam is sculpted away from areas where less thickness is needed. This reveals lower density comfort foam at the outer edges, and high density foam at the pressure areas. Its 3D sculpted surface is a seamless landscape that provides support where you need it and minimizes abrasion causing edges. The surface fabric is made from Soflex Nylon which is highly breathable and ultra soft. 35cm in length</p>	<p>Source: Italy - Berenis Contoured low and high density perforated foam</p> 	Four Way	Antibacterial Soflex Nylon	6 hours
<p>Elan - Men's & Women's</p> <p>Using the latest in Skyve molding technology, the Elan has a smooth riding surface which helps to eliminate any pinch points. The multi density foam is dispersed perfectly throughout the pad to give you protection for up to five hours in the saddle.</p>	<p>Source: Italy - TMF Contoured triple density perforated foam with Skyve technology</p> 	Two Way	Swiss Antibacterial	5 hours
<p>Apex - Men's & Women's</p> <p>The Apex pad is perfect for the 1-4 hour rides. The silky surface fabric along with the slightly graduated molding makes this pad feel smooth and comfortable, both on and off the bike. A lower density foam is used to be more form fitting and supply the prefect protection at the correct pressure points. Completely seamless construction, and 3 level molded center increases ride comfort and reduces strain on pressure points.</p>	<p>Source: Italy - TMF Triple density perforated foam</p> 	No	Swiss Antibacterial	4 hours

Glove Sizing Chart

Size	Length of Hand	Circumference Around
Small	7" - 8"	7"
